SPEB Adhesives Expands International Footprint Through Strategic Engagement at Dubai Chamber BMG

Mumbai, 19th February 2026: SPEB Adhesives Limited (NSE-SME: SPEB) a leading player in synthetic rubber-based adhesives, marked a significant step in its **GCC expansion journey** by participating in the **Building Materials Group event** hosted by Dubai Chamber on 12th February in Hotel Alqouz, UAE.

The Building Materials Group, a business network under the Dubai Chamber of Commerce, serves as a dynamic platform that brings together professionals, traders, manufacturers and key stakeholders from the construction and building materials ecosystem. The forum fosters collaboration, industry dialogue and meaningful business engagement across the region.

Representing SPEB Adhesives, **Mr. Nitish Bharadwaj, Sales Head GCC**, presented the company's legacy, manufacturing strengths and diverse product portfolio. Given that SPEB's adhesive solutions are widely traded through building material distributors across the region, the event provided a highly relevant platform to connect directly with key channel partners and industry participants.

Commenting on the development, Mr. Gaurav Vitlani, Managing Director at SPEB Adhesives, said, *"Our participation at the Dubai Chamber Building Materials Group reflects our focused and consistent efforts towards expanding in the GCC region. Alongside market expansion, we are placing strong emphasis on new product development and innovation, particularly in advanced water based adhesive solutions that align with evolving industry requirements. The response at the forum was highly encouraging, with meaningful discussions around performance*

driven and environmentally responsible bonding solutions. We are confident that our strengthened product portfolio will play a pivotal role in building long term partnerships across the region and accelerating our journey towards becoming a globally respected brand.”

About SPEB Adhesives Limited:

SPEB Adhesives Limited is engaged in the manufacturing of synthetic rubber-based adhesives, with a strong focus on solvent-based formulations. The Company offers both solvent based and water based adhesive solutions, including polychloroprene and SBS based products, catering to diverse industrial and retail applications such as woodworking, footwear, ducting and insulation, foam and furnishing, hardware and generator sets. Operating under a B2B model, SPEB delivers performance driven bonding solutions backed by decades of industry expertise.
